EMPOWERING LIVES AND INDUSTRIES

Tech-Driven Solutions for Accessibility, Logistics and Entrepreneurship

Empowering Lives and Industries: Tech-Driven Solutions for Accessibility, Logistics and Entrepreneurship is a collection of articles from the Conference on Business, Social Science, and Technology 2024 (CoNeSciNTech 2024). It showcases how technology is used to break barriers and boost innovation in business and society. The book emphasizes the practical application of tech to enhance lives and operations across various sectors. Through five chapters, it presents diverse projects tackling real-world challenges using advanced technology. Each contribution reflects the conference's goal of merging innovation with impactful solutions.

NORHARYATI HARUM is currently a senior lecturer at faculty of ICT, Universiti Teknikal Malaysia. She received BEng, MSc and PhD in Engineering from Keio University, Japan. She has working experience in R&D Next Generation Mobile Communication Department at Panasonic Japan. Her research area includes Internet of Things (IoT), Embedded System, Wireless Sensor Network and Signal Processing. You can connect with Norharyati using norharyati@utem.edu.my

ERMAN HAMID is currently a senior lecturer at faculty of ICT, Universiti Teknikal Malaysia (UTeM). He received BIT (Hons) from Universiti Utara Malaysia and MIT (Computer Science) from Universiti Kebangsaan Malaysia. His research area includes Internet of Things (IoT) and Network Visualization. You can connect with Erman using erman@utem.edu.my

NURUL AKMAR EMRAN received a bachelor's degree in management information system (MIS) from the International Islamic University Malaysia in 2001, an MSc in Internet and Database Systems from London South Bank University in 2003, and a PhD degree in computer science from the University of Manchester, UK in 2011. In 2004, she joined the Department of Software Engineering, Universiti Teknikal Malaysia Melaka, as a Lecturer. Her current research interests include database systems, storage space optimization, mobile analytics and data quality. You can connect with Nurul Akmar using akmar@utem.edu.my
